Dear HOA, JeanMarie:

When I purchased the house, the yard came with 100% coverage with grass.

now you said "The yard could be only covered 60%". What you said is totally against the New York Consumer Laws.

I have never been told that "The yard could be only covered 60%" from HOA any time. The common sense is that green coverage is

always better than the human pollution. What quality of living environment we are looking for? What beautiful garden you are looking

for? You cannot just put your fingers to other by saying "This is unkept" but you don't know anything. What you said is totally non-

sense and very wrong. Why did you say that my yard was unkept? Look at the picture, could you tell me which part of my yard is

unkept. Please prove it.

The fact is my yard has all varied flowers from season to season all the time. I spent a lot money and labor works to build up my

wonderful green garden. What's wrong with your adjustment? Yes, I know Barbar doesn't have any art education and basic

knowledge environmental science and public management experience and education. This is a big shame to HOA and this is one of our

big problems. Please, comparing my yard to many HOA's people yard(I have all the pictures and videos from year by year),

Why could they have very tall trees or mess plants in their yard? But I couldn't. By this way, Barbar discriminated me for over 8 years.

Everyone should be treated equally, otherwise this is discrimination and we all know it very clearly and intelligently.

I paid maintenance HOA fee every single month. Do you know what you did to me? You only discriminated me all the time. All the

plants dead in the common area over 4 years, Barbar saw that, but she ignored it completely. I told you, JeanMarie, about that last

year by email, but you just ignored me too.(checked my email last year.) I have to plant my flowers in the common area in order to

replace the dead plants.(I also have pictured and videos from different years to prove the wrong doing of the HOA management).

sincerely!

Edward Chen
